Federal Agency Activity for the PSAC CESU

- There was a round robin discussion of the activity for CESU projects in the PSAC by each participating federal agency. The amount of activity varies by agency based on the expertise needed to implement a project. There were no issues expressed by any of the federal agencies with the project services they were receiving from the PSAC CESU.

General Discussion

- Tom Fish provided information from the National CESU Network level. He discussed having received the legal review of federal agency’s authorities. He would make the information available (possibly electronically on line) to the federal agencies once he had a chance to review it.

- It was also discussed that it would be nice to invite Jim Sweeney or the Host University Representative to the Federal Manager’s meeting to meet with the federal agencies one on one to address any issues and/or concerns.
